BOELUBE 70307

Multi Use Medium Blue Paste
Hight performance Lubricant

BOELUBE®

A BOEING DEVELOPED LUBRICANT

BOELUBE® 70307 Paste is non-toxic, non-irritating, environmentally safer synthetic lubricant for minimum quantity lubrication (MQL) application.
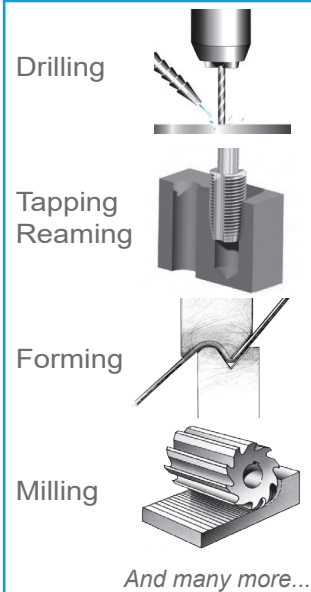

TYPICAL PROPERTIES ■■■

Physical State : Paste
Color : Blue
Melt Range : ~90-110F (32-43C)
Density : ~ 0.84 g/cm3 @ 25 C
VOC Content : Non-volatile (< 0.1%)

PRODUCT BENEFITS ■■■

Superior Lubricity.
100% active product.
Non-Hazardous.
Shelf life indefinite under ambient conditions.

Applications

Drilling

Tapping
Reaming

Forming

Milling

And many more...

CONTAINERS ■■■

| 70307-02 (2 oz - 57 g) | 70307-L (4 oz - 113 g) | 70307-12 (12 oz - 340 g) | 70307-05 (35 lb - 16 kg) |

MATERIALS ■■■

[X] Stainless steel	[X] Wood	[X] CFRP	[X] Alloy
[ ] Polymer	[X] Aluminum	[X] Glass fiber	[ ] Kevlar
[X] Copper	[X] Titanium	[ ] Resin	[X] Composite

ABOUT BOELUBE PRODUCTS ■■■

MADE IN USA

- Petroleum-free
- Sulfur-free
- Phosphorus-free
- Silicone-free
- Paraffin wax-free
- Halogen-free
- Biodegradable
- Non-corrosive
- Non-irritating
- Chemically stable
- Non-flammable
- Environmentally safer
- Used in aerospace and other manufacturing industries
